

REPORTS WORKING GROUP

DPAS STANDARDIZED REPORTS RECOMMENDATIONS

AUGUST 26, 2004

Defense Property Accountability System

REPORTS WORKING GROUP

Accomplishments

- **First meeting - March CCB**
 - **Established Members and Mission**
 - **Review of Suggestions from Users and DPAS Staff**
 - **Preliminary Ranking and Suggestions**
 - **VTC held during March CCB**
 - **Created timeline for User Reports Survey**
- **Subsequent activities:**
 - **Created reports survey**
 - **Initial survey sent out**
 - Received 90 responses
 - 8 Agencies participated
 - No Army sites participated

Defense Property Accountability System

REPORTS WORKING GROUP

- **Second survey sent by a broadcast message**
 - Received 294 responses
 - 20 Agencies participated
- **A total of 384 responses with both surveys**
- **Second meeting 24 Aug 04**
 - **Discussed results of survey**
 - Surprised by all reports are being used to some degree of regularity (e.g. rarely, daily, often).
 - When reviewing the survey results, the report with the fewest number of responses equates to nearly 400 users requiring that report.
 - Therefore, we recommend those reports for which the preponderance of responses were “rarely used” AND; the data can be obtained by a Eureka query those on line reports can be hidden.

Navy:

Keep Eureka: 62%

Submit to Navy PP&E: 20%

Defense Property Accountability System

REPORTS WORKING GROUP

Recommendations

- Maintain current reports
- 48 Reports identified with “D” should remain on line reports.
- 13 Reports identified with “E” can be hidden from on line report queues since the data included in the on line report can be easily obtained using Eureka queries.
- DPAS create Eureka queries for hidden reports.
- Requests for hidden reports should be collected and evaluated to determine if report should be reinstated to on line status.
- Confirm if Real Property Accounting Report should remain an on line report.
